“

For the last 23 years I've had a "push-back" recliner. I looked around, but was having trouble with the look of so many recliners. Then I found the UltraCozy power recliner with the baby track arms. It really blends with the look in our living room. It is so comfortable with all of the different positions and I can easily customize to my needs.

”

Our **AutoDrive™ hand control** features programmable buttons for ZG+, Rejuvenation, and TV-watching, plus two Memory buttons to save your favorite positions. As if that weren't enough, we've also added power headrest support and power lumbar support as a standard design creating five adjustable and personalized Comfort Zones for the world's finest reclining experience.
