PRODUCT DESCRIPTION

The Rigel Power Lift Recliner

Relax and recharge with the **Rigel by UltraComfort**. This medium/large sized lift recliner offers an overstuffed seam back that will comfortably accommodate more people thanks to the taller design. It also features a stylish top load, open-arm design with a posture-encouraging bucket seat and plush chaise pad providing hours of unmatched comfort.

Adding to your Rigel experience, your positioning options are endless with our **4-Zone Comfort Zone™** positioning system, which offers four adjustable positioning zones: footrest, backrest, headrest, and lumbar all operated by our programmable AutoDrive™ hand control.

For extra wellness and comfort, add our full-body HeatWave Technology. Like a ray of sunshine, this innovative technology produces invisible Far Infrared light waves that deliver healing warmth up to three inches deep into body tissue where it is most effective, helping to reduce inflammation, relieve joint pain, alleviate muscle tension, improve circulation, and speed cellular recovery. The gentle heat produced in Far Infrared heat therapy can also support the treatment of injuries and positively affect blood circulation. It's like absorbing the very best of the sun without harmful Ultraviolet light waves. Learn more about [UltraComfort's HeatWave Technology!](#)

Innovative & Convenient Open Arm Design

Incorporating the latest in convenience and innovation, the Rigel features thoughtfully designed right and left arm compartments. The right arm compartments feature a special **no-spill cup holder** that keeps beverages upright, even when moving into or out of the lifted position. Additionally, it provides

storage for the AutoDrive hand control, ensuring easy access whenever you need it.

On the left side, the arm compartments offer even more functionality. Enjoy the convenience of a **wireless smartphone charger**, allowing you to keep your device powered up without the hassle of cables. The **removable table** provides a dedicated space for your snacks, books, or electronic devices, while an additional USB charging port keeps your devices fully charged.

The **HeatWave[™]** hand control, specially designed for soothing far infrared heat therapy, finds its place here as well. Thanks to the split design, you can utilize the cup holder and table without sacrificing the comfort of the armrests!
